

THE MAKE AND LOOK LOCK-DOWN BOOK

This book belongs to

Here is your own artist's book, made and read by you ! You chose the colours of the paper, you folded the sheets, you cut the windows... and in the end, you are the one that made the letters appear. You can't isolate them, you can't "take" them, they are just holes in the paper ! So these letters only exist in your eyes, in your mind. This is what it is to be a Reader, right? Whatever the book, you are the one that creates the meaning on the pages. It's a great role to play, and a very important one too.

This book is fun to make, and shows you more about how to create books. I am sure that you'll get lots of inspiration from it, to make your own artist's books, and keep reading !
